

December 13, 1934.

Mr. W.S. Carpenter,
Glendale, Utah.

Dear Sir:

RE: LONG VALLEY DIST.

This will acknowledge receipt of your letter of December 10, relating unpaid assessments for the expense of distribution in 1934. Cards will be sent to the delinquents as a reminder of the amount due, though I am not sure that it will do any good. However, the cost won't be great, and I desire to give them another chance before taking further action.

It is noted that you advise that Muddy Irrigation Company be stricken from the tax roll for the season of 1934 since the water commissioner has not, for a number of years past, been asked to divide any water on this system. Might I ask why this suggestion has not been made heretofore and further request that your adjudication committee also pass on your recommendation and advise me immediately of their recommendations in the matter. I desire this as a matter of record.

Yours very truly,

T.H. Humpherys.
STATE ENGINEER.
